SUMMARY

Software Engineer with hands-on experience building full-stack applications using React, FastAPI, PostgreSQL, Docker, and AWS. Passionate about leveraging AI-assisted development tools such as Cursor, Claude, and ChatGPT to automate workflows, accelerate development, and build production-ready software. Strong foundation in backend engineering, REST APIs, cloud deployment, and modern development practices.

EDUCATION

B.Tech in Computer Science — 2022-2026

CGPA: 6.9

University of Petroleum and Energy Studies, Dehradun

EXPERIENCE

AVC System Solutions — Intern

April 2026 - June 2026

Sector 7, Noida, UP

- Maintained a web-based operational portal using JavaScript and MySQL to improve usability and performance.
- Diagnosed and resolved application bugs, implemented feature enhancements, and collaborated with cross-functional teams to ensure smooth day-to-day operations.

IBM — Intern

June 2025 - Aug 2025

Dehradun, Uttarakhand

- Built and configured secure AWS IoT solutions by implementing device authentication, encrypted communication, and cloud integration for scalable deployments.
- Configured AWS IoT services, integrated connected devices with cloud infrastructure, and followed IoT security best practices for scalable deployments.

PROJECTS

Task Management API Developed a production-ready API using FastAPI, PostgreSQL, Redis, Celery, Docker, and GitHub Actions with JWT authentication, background jobs, caching, automated testing, and CI/CD deployment.

AI Website Analyzer Built an AI-powered website analysis platform using FastAPI, React, BeautifulSoup and LLMs to automate SEO audits, content extraction, and report generation through AI-assisted workflows.

VSUM: DSNet Video Summarizer Developed a React-based NLP application that converts YouTube transcripts into structured summaries using Python and REST APIs.

Salary Predictor Built a full-stack machine learning application using React, FastAPI, and Scikit-learn to predict employee salaries through REST APIs.

SKILLS

Programming Languages	JavaScript, Java, C, C++ and Python
Frameworks	FastAPI, React.JS and SQLAlchemy
Databases	PostgreSQL, MySQL, MongoDB and Redis
AI Assisted Development	Prompt Engineering, Cursor, Claude and ChatGPT
Dev Tools	AWS, Docker, Git, GitHub, Pytest and Github Actions

TECHNICAL CERTIFICATIONS

- AWS Academy Graduate/ AWS Academy Lab Project/ AWS Cloud Practitioner Essentials
- AI Engineer Core Track: LLM Engineering, RAG, QLoRA, Agents
